- *the materials and labour are top quality*
- *each item meets the different needs of the market*
- *they have a high air retention*
- *they have a high performance and durability on use*

FOOTBALL

With this modern HYBRID technology the "touch of the ball" is completely different from the traditional "hand sewn"; to the kick reaction is rapid, making it seem light, and it has these characteristics to using:

- more FAST
- more SPHERICAL
- more AIR RETENTION
- the SEAMS are guaranteed for 1 year
- it keeps the DIMENSION constant

FUTSAL rebound controlled

The FUTSAL ball is constructed with this new HYBRID technology that best suits the controlled rebound ball, especially on flat and fast surfaces. The ball is perfectly round and the reaction to ball is as fast as players ask.

Compared to the previous hand-sewn it has these characteristics to using:

- more FAST
- more SPHERICAL
- more AIR RETENTION
- the SEAMS are guaranteed for 1 year
- it keeps the DIMENSION constant
